

**FOURTH PHASE PARENTS:**

When your child earns fourth phase, you are required to repeat the first six new parent raps.

**INTOWN PARENTS:** Regardless which night your child earns fourth phase, start your raps on a MONDAY night and go through all six raps in order. (That's right! Your child has his/her very first night off from open meeting and YOU are required to be here for the rap!)

If you're not in for open meeting, be here by 6:30 p.m. for the rap.

**OUT-OF-TOWN PARENTS:** Start your raps the very first night you are here after your child earns fourth phase.

If you start on a Monday, then you will be doing all raps in sequence, attending all M.I. raps on Fridays.

More likely, you will start raps on a Friday. Go to the new parent rap (in the parent intake room) on the chemically dependant family and the tools of personal change.

Thereafter, go to four M.I. raps whenever you are here. When attending M.I. raps on Fridays, bring with you four M.I.s, written on the Monday, Tuesday, Wednesday and Thursday preceeding the rap. If you come to M.I. raps on Mondays, bring your M.I.s for the Friday, Saturday and Sunday preceeding the rap.

The six raps should be completed within three months. At some time during those three months, you should arrange to be here to attend the Monday rap on feelings and the mood swing. That rap is presented only on Mondays.

Husbands and wives do not necessarily have to attend all raps together if you are not always here together.
