Beginning February 1, 1984, STRAIGHT, INC. in Atlanta is available to Dallas families who desire treatment in this very successful program.

STRAIGHT, INC. is a not-for-profit family oriented drug and alcohol treatment program for adolescents which originated in St. Petersburg, Florida. Now there are branches in Atlanta, Cincinnati, and the greater Washington, D.C. area with over 800 participants. Young people ages 13-22 are currently under treatment.

Clients live in closely supervised homes of other families participating in the program. Days are spent at the STRAIGHT building interacting in groups which are guided by a trained staff. Peer pressure - the major factor leading to drug and alcohol usage - is used through the group activities to help the person become free of chemical dependence.

The Dallas area representative for STRAIGHT, INC. is Joan Barnette. Joan and her family have had a successful experience at STRAIGHT and she would be happy to talk with any concerned parent. If enough families from this area enter the STRAIGHT program through Atlanta, the nucleus for a Dallas/Ft. Worth program would be established.

STRAIGHT, INC.
