### **Straight** Gets Temporary Permit

**SARASOTA - Straight Inc. will continue to operate in Sarasota under a 90-day license, pending the outcome of recent efforts by Straight officials to meet stricter state standards.**

**The temporary license is the second issued by the Department of Health and Rehabilitative Services following a critical report released by State Attorney James A. Gardner in March and numerous complaints from parents and former clients.**

**If Straight's Sarasota and St. Petersburg facilities comply with new operating guidelines set forth by the state, the two drug programs will be granted one-year licenses, according to HRS District VIII Administrator Robert Constantine.**
