Re: The Seed, Inc.

Dear Sir:

For your enlightenment, you will find enclosed a review of the accomplishments of The Seed, Inc. with reference to its work with the young people of Florida and our Country.

The only true, outside, professional evaluation report of The Seed, Inc. has now been submitted to the Office of the Governor by the "State Drug Abuse Advisory Council". This evaluation was conducted and prepared by Addiction Consultation and Evaluation, P.D. (Richard N. Katon, M.D., President) for the purposes of "absolute and complete objectivity in this study"!!

We urge you to obtain the newly released copy of the "Katon report" - for the benefit of the young people in your community in need of The Seed's help.

Sincerely,

THE SEED, INC.
